SKILLS

Engineering

App & Software Development

Audio Engineering

Electronics & Hardware Testing

Music & Media

Music Production

Sound Design

Spatial Audio

Modular Synthesis

Live Performance

Photography

Video Editing

Ecology & Production

Permaculture Design

Wastewater Systems

Natural Building

Event Production

Logistics & Organization

Programming

C/C++, Objective-C, Swift, HTML/CSS, JavaScript, Python

Applications & Equipment

Ableton Live, Max/MSP, Logic Pro, Adobe (Photoshop, Illustrator, Audition, Premiere Pro), Autodesk Fusion 360,
Eurorack, Scientific Instruments, Gardening Tools

WORK EXPERIENCE

TECHNOLOGY & INDUSTRY

Apple Inc. | Siri Audio Software Engineer

Cupertino, CA · 2022–2025

- Resolved “Hey Siri” activation issues across hardware and software releases, focused on iOS accessories - CarPlay and AirPods.
- Validated and managed releases of a palettized wake-word model for the Always-On Processor across iPhone hardware builds, improving “Siri”-only detection accuracy within tight compute and memory limits.
- Contributed to wake-word model switching across iOS, AirPods, HomePod, and macOS. Documented API and messaging flows for alternate wake keywords across software and hardware components in audio, Bluetooth, and Siri. Created and coordinated cross-functional test suites involving 20 test engineers.

mmmooommm productions | Developer & Co-Founder

Remote · 2020–2022

Designed and developed **Orgona**, an immersive VoIP app that places conversations in shared acoustic spaces with distinct soundscapes shaped by voice reverberation, spatialization, and ambient sounds.

- Built the iOS interface and app logic in Objective-C/UIKit, and a CoreAudio/C++ audio engine. Developed a Flask/Python VoIP backend integrated with Twilio; launched a TestFlight beta for about 100 users.

Apple Inc. | Core Audio Software Engineer

Cupertino, CA · 2016–2019

- Worked on the Core Audio software stack, helping ship the original HomePod and H1 chip-based AirPods.
- Built DSP analysis tools used by Audio QA teams for automated testing.

SoundFocus | iOS & Audio Software Engineer

San Francisco, CA · 2014–2016

Developed software and validation tools for *AMP*, a Made for iPhone case with an embedded system for personalized audio.

- Owned and developed the Objective-C iOS app for hardware setup; built macOS/iOS interfaces and testing tools for the C++ audio engine.
- Implemented USB audio/I2S/UART drivers, STFT-equalizer, single-band compressor, and gain smoothing (in C) on STM32F4 (ARM Cortex-M4).
- Profiled audio algorithms on iOS and STM32F4; debugged PCB power circuitry and characterized amplifiers and micro-speakers.
- Supported two Engineering Validation Test builds in China, designing PCB electrical tests, Audio Precision electro-acoustic tests and tolerances, and an iOS factory functional-testing app.

GOVINDA RAM PINGALI

govinda@pgr.earth

EDUCATION

Master of Science in Music Technology

Georgia Institute of Technology
Atlanta, GA, USA
Aug 2012 – May 2014

Bachelor of Engineering in Instrumentation Technology

R.V. College of Engineering
Bangalore, KA, India
Sep 2008 – May 2012

COURSES

Sound Journey Facilitation Training

SVARAM, Auroville, India
January 2026

Singing Bowl Mastery: Techniques and Healing

iChakras, Los Gatos
Spring 2024

Permaculture Design Course

Santa Cruz Permaculture
Apr - Sep 2023

WORK EXPERIENCE · CONTINUED

PERMACULTURE & FARM PRACTICE

Palette o' Green 'n Red | Farm Manager

Ramanagara, Karnataka · 2019–2022 (Full-time) · 2022-Present (Part-time)

Helped develop and manage a 3-acre permaculture farm and community space near Bangalore, Karnataka, India

- Built and maintained rainwater management swales, vermicomposting, and wastewater treatment systems.
- Assisted with installation of a 5 kW solar system with 13 kWh storage.
- Managed a two-acre organic mango orchard, including tree care, disease management, harvesting, and distribution.
- Helped design and construct lodging, event spaces, and a café - using stabilized mud blocks and natural pole trusses; coordinated construction.

The Becoming Festival (beta version) | Host / Producer

PGR Farm · December 2025

Produced and hosted a prototype two-day community jam for 30 attendees, coordinating programming, venue operations, production, hospitality, and live performances.

MUSIC & CREATIVE PRACTICE

Elektric Body | Producer / Composer / Live Performer

San Francisco, CA · May – August 2026

Composed, recorded, produced, and performed a 30-minute musical work for an aerial arts and dance performance at Fort Mason SF, combining live instrumentation and electronic composition. Mixed in 3rd-order Ambisonics and rendered live over an octophonic sound system.

Circus & Strings | Drummer

Three consecutive years · Most recent: August 2026

Played covers for about 13 aerialists in a four-piece band on a hybrid acoustic/electronic drum kit, combining stick and finger drumming.

Travelling Waves | Creator / Developer

Remote · 2016–Present

A Sound Healing Synthesizer. Built a 16-voice iPad synthesizer (UIKit interface, C++ audio), released as a TestFlight beta primarily for personal use, with three additional users. Each voice has two oscillators in stereo for beat frequencies, a filter, and two LFO-driven amplitude modulators, all controlled by a master timing and pitch clock with frequency ratio controls.

BeMotion | Designer / Developer

Atlanta, GA · 2014

Built motion-gesture-controlled audio sampling, looping, and effects for iOS.
